

MANUFACTURER FOR INTELLIGENT ELECTRIC  
DRIVING AND WORKING

## LEFFERT FM-55

You want quick and easy access without compromising on power and speed? In that case, the FM-55 is the ideal vehicle for you. The practical seating makes access super easy. This robust vehicle has a rugged exterior and can cope with any type of terrain whether in urban or country environments. The FM-55 offers extreme functionality, perfect for transporting small equipment like tools or a brush cutter.

The FM-55 is delivered as standard with authorisation for use on public roads and an internal battery charger for main grid use. Simply plug into a wall socket: it couldn't be easier! The battery will charge within  $\pm$ six hours (two hours is optional). The Leffert FM-55 is supplied as standard with a (category L7e) registration plate, so it can be used public roads

Depending on the wishes and requirements of the user, the technical specifications and exterior of the vehicle can be fully modified and customised. Business users may be able to benefit from tax subsidy schemes. A variety of accessories can be selected for specific applications, such as an extended or fully enclosed cab. This creates a versatile and multifunctional vehicle.

The vehicle is supplied as standard with 72V 160 Ah (12.25 kWh) lithium batteries. Thanks to the powerful lithium batteries, our Leffert Series vehicle is lighter (by up to 260 kg) and can carry a load of up to 500 kg. The range can be adjusted from 60 km to 100 km thanks to the modular lithium system. The lithium batteries last up to four times longer than AGM batteries and are covered by a standard two-year warranty. Businesses can be eligible for government subsidies, so investing in our Leffert vehicles with lithium batteries can bring benefits under the environmental investment allowance (MIA) and the small projects investment benefit (KIA).
