

Leffert FM-100 4x4

Leffert FM-100 4x4

The Leffert FM-100 4x4 is a powerful and versatile 4-seater, developed for maximum usability across a wide range of terrains. Thanks to its selectable four-wheel drive, this vehicle provides optimal grip and stability, even under more demanding conditions. The combination of comfortable passenger transport and a robust, functional cargo bed makes the FM-100 4x4 exceptionally suitable for intensive daily operations.
